Dear Mr. President,

Very many thanks for your letter, and your kind appreciation of my essay. If the University should be unable to print it - save at my own expense - I should be glad to offer it to the "University Magazine" - I hope the Editor would not think it too lengthy. But I should prefer to have it printed and published by the Toronto University Press. It must have been discouraging for you to find publishers unwilling to accept your book - and the reason they gave does not, I think, reflect much credit on the public. It is rather too early, for non-combatants at any rate, to be "fed up" with the war.

I remain

yours very truly
